DETAILED ACTION

1. This Office Action is in response to the Amendment filed 7/14/08. Claims 11-14, 17-24, 26-28, and 31 have been cancelled. Claims 1-10, 15, 16, 25, 29, and 30 are currently pending in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 25, 29, and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25 contains the term “the connection device” in line 6. It is unclear which previously mentioned “connection device” this term refers to. For example, claim 25 contains the terms “a connection device” in line 1, “another connection device” in line 5, and “a connection device” in line 6. It is unclear which of these terms are referring to the same “connection device” and which are referring to different connection devices. It is recommended that the language of claim 25 be amended such that each separate “connection device” is clearly defined.

Claim 25 also contains the phrase “a connection device to which is connected the connection device and to which the connection device should connect”. It is unclear

Art Unit: 2416

what this phrase exactly means. It is recommended that claim 25 be amended such that this claim limitation is stated more clearly.

Claims 29 and 30 are rejected since they depend on rejected base claim 25.

Allowable Subject Matter

4. Claims 1-10, 15, and 16 are allowed.
5. Claim 25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. Claims 29 and 30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Goedicke et al. (U.S. Publication US 2003/0050037 A1), Lee et al. (U.S. Publication US 2004/0039817), and Eriksson et al. (U.S. Publication 2002/0059453) each disclose systems and methods of selecting a connection device to connect to from among multiple connection devices.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
